JUDGE BOGGS

Says a Few Things of Interest to the
Public.

Louisa Ky., April 1, 1911.
The winter of 1911, with its many
changes and happenings, is now a
matter of the past. There has
been much distress and sickness
among our people, and many deaths,
but things could have been worse.
So let us be thankful that matters
are no worse than they are. I will
say that my heart goes out in sym-
pathy to all distress and suffering,
but we that have been permitted
to live must make up our minds to
do our best whether we be officials
of the county, attorneys at bar, busi-
ness men, ministers of the Gos-
pel, tillers of the soil, or what-
ever our vocation in life may be. We
owe it to society to be sober, in-
dustrious honest law abiding men. So
let every man get this idea that the
victory depends on the effort that
I make as an individual. We are
at the beginning of an other busy
season, and I hope that all of our
people will strive hard to benefit
by it, morally, physically and social-
ly. I will now digress to another
matter—the roads of Lawrence coun-
ty. As I have told you before, by
order of the Fiscal Court every
male citizen of the county be-
tween the ages of 18 and 50 years
who is able bodied is required to
put in 6 days work of eight hours
each in each year except licensed
ministers, etc. I will expect every
overseer in the county to warn
their hands out as soon as the
weather will permit and give ev-
ery man a chance to comply with
this order, and then make a report
to the most convenient Magistrate
or to the county court.

As there has been considerable
complaint made to me about the
farmers in different sections fence-
ing up the county's right of way,
I want to call your attention to a
law that was enacted in 1910 ap-
proved March 24th, 1910, to-wit:
That it shall be unlawful for any-
one to obstruct a road by putting a
crossing either private or public over
a ditch of a public road without
providing a culvert or drain pipe
of such dimensions as will carry
the full volume of water that
that may drain in this ditch. It
shall also be unlawful to plant trees
telephone poles or fence in or
closer than two and one half feet
of the outer edge of the ditch, so
that a plow may be used in making
or widening them. Any fencing tree
or stone falling into a ditch or
rolling down from above into it
shall be removed within five days by
owner of land of which the obstruc-
tion was a part, or any person not
an owner trimming trees or cutting
weeds or briars, or any person plac-
ing any other obstruction in water
table or ditches shall be liable for
all damages done by turning water
into the road bed, and also to a
fine of two dollars for each day
the obstruction has laid in the ditch
longer than five days. And it is
made the duty of every overseer by
this act to report every misdemeanor
or under this act with all of
the evidence to the
Magistrate in whose district that
part of the road may lay on the pen-
alty of being indicted by the first
grand jury. Now, I hope that the
legal road hands when called on
by their overseer will respond
promptly, also men who are too old
by law; Many of you are strong
and able to work, get up your teams
and go out on road working days
and boys dress up the roads. In
your road working this spring be
sure to clean out the ditches and
We must all get away from self
more, be interested in a general
way. There is not any thing that
speaks louder for a county than
does good roads and good substan-
tial school houses. Have you not-
iced that your County Superinten-
dent is building the school houses?
We must build the roads or at least
take more interest in them than
formerly.
DAVID BOGGS.
